Synthetic voice advertising license

An original fictional agreement for FairModel workflow testing. Prepared November 11, 2026.

Demonstration only. This unsigned document uses fictional participants. It does not itself grant rights in a real person's voice, establish real consent or create a real payment obligation.

01 / Parties and license term

Voice artist: Amara Reed (fictional demo persona).
Production studio: Northstar Studio (fictional demo persona).
License start date: 2026-01-01.
License end date: 2027-12-31.

02 / Permitted commercial scope

Permitted media: online advertising. Online commercial advertisements mean online advertising under this agreement. Television advertising, radio advertising and podcasts are not permitted media.

Permitted territories: US (United States).
Permitted languages: English.
Allowed campaigns: Cedar Everyday Launch.

The licensed use is synthetic-voice advertising for ordinary consumer products within the permitted campaign, medium, territory, language and dates.

03 / Included allowance and additional usage

Included voiced duration: 30 seconds per asset.
Billing basis: per asset.
Additional usage permitted: yes.
Additional usage rate: 2.00 USD per spoken second above the included allowance.
Currency: USD.

Billable duration is measured spoken duration, not total recording length; silence and non-speech music are excluded.

Fractional spoken seconds are billed proportionally. The final monetary amount is rounded to two decimal places using HALF_UP rounding.

04 / Prohibited content

Restricted content categories: political advertising, gambling, adult content. Additional royalty payments do not authorize prohibited content or expand the permitted licensing scope.

Review and royalty terms

Continuation of FM-FISH-DEMO-20261111-02. The parties and commercial terms on page 1 apply.

05 / Campaign metadata condition

Campaign category must be consumer products.

06 / Review before publication

The studio must submit each generated advertisement for licensing compliance review before publication.

07 / Artist charge approval

The artist must approve additional royalties before an invoice is issued.

08 / Worked examples

The examples below illustrate the agreed per-asset allowance and additional rate. They assume permitted use and accepted measured spoken duration; the actual recording measurements determine the result.

Spoken duration	Additional seconds	Additional royalty
20.00 seconds	0.00	USD 0.00
23.52 seconds	0.00	USD 0.00
30.00 seconds	0.00	USD 0.00
45.00 seconds	15.00	USD 30.00
58.77 seconds	28.77	USD 57.54

Execution status

Unsigned fictional test document. No artist signature, studio signature, independent identity verification or provider processing consent is represented by this PDF.

For local testing, review and approve the extracted terms in FairModel. The actual recording owner must separately grant the selected provider permission in the application. Provider privacy terms and payment-provider notices are displayed separately in that workflow.
